

## **DRGs**

**Description Of Map:** A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey (USGS) topographic map. The images are relatively low resolution and have been clipped along the neat lines and georeferenced to create nearly seamless mosaic coverage of the state. Most maps contain 10-foot contours.

**Areas That The Map Covers:** Statewide Coverage.

**What The Map Is Used For Or How It Can Be Used:** These maps can be used to find elevations of land, water, mountains, etc....

**How Often The Map Gets Updated/Print Update:** Not Applicable

**Layers Used:** DRG

**File Path:** Not Applicable

**Base Scale:** 1:24000

**Map Scale:** Varies by Map

**Map Code:** D3
